Hi CIEA,

My name is **Brian Yazzie**, and I'm a professional magician, educator, and the **only Native American (Navajo) magician performing professionally in the world.**

For over 18 years, I've traveled across the U.S. performing magic that blends cultural storytelling, mentalism, and personal resilience — inspiring students of all ages to embrace who they are, where they come from, and what they're capable of achieving.

In 2025, I'm organizing a **California School Tour** focused on **Native youth empowerment** through live, motivational performances. My goal is to visit tribal schools, urban Indian education programs, and public schools with large Native student populations — offering shows **at no cost** to the schools by partnering with organizations like the California Indian Education Association.

I'm reaching out to explore:

- **Sponsorship or funding support** to cover travel and performance expenses
- **Collaborative outreach** to Indian Education programs and school districts
- Participation in CIEA events or inclusion in state-level cultural programming

This tour is deeply aligned with CIEA's mission to promote Native visibility, educational success, and culturally relevant learning opportunities. My program combines interactive magic with powerful messaging that affirms cultural pride and student potential.

I've attached a one-page sponsorship sheet with details and would be honored to speak with your team about potential collaboration.

Thank you for all you do to uplift Native students across California — and for considering this opportunity to bring something unforgettable to the classroom.

With gratitude and respect,

**Brian Yazzie**
